INTRODUCTION

The Forest is Life

For the Suku Anak Dalam
Batin Sembilan community in Jambi,
the forest is more than a place
to live. It is where knowledge
is passed down, food is gathered,
and daily life is lived in close
connection. The forest is home,
livelihood, and a marker of life.

“

Home.
Food.
Knowledge.

100% Madu Hutan Asli
Tanpa campuran.

Dari Tradisi Besialang
Lestari dan berkelanjutan.

Dari Hutan Jambi
Murni dari alam.

PRODUCT STORY

Born from Tradition

Madu Telisak is born from the Besialang tradition of the Batin Telisak community—an inherited knowledge of recognizing sialang trees, reading the seasons, and harvesting wild forest honey with respect for nature.

From this long relationship with the forest comes honey that is honest, valuable, and rooted in culture.

100% Natural Forest Honey
No additives.

Born from Besialang Tradition
Sustainable and ongoing.

From the Forests of Jambi
Purely from nature.

From the Sialang Tree

Apis dorsata • Forest multiflora nectar

Madu Telisak is produced by the wild honey bee *Apis dorsata*, which nests in sialang trees. Harvested seasonally from a forest landscape rich in wild blossoms, this honey carries a multiflora character that is natural, clear, and distinctive.

Origin

Batin Telisak, Jambi

Wild honey from *Apis dorsata*.

Multiflora nectar from forest wild blossoms.

Naturally from the sialang tree.

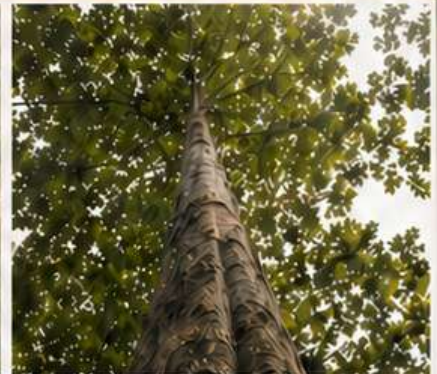

THE HONEY HUNTERS

The Lifeblood of the Piawang

For the piawang, the traditional wild honey harvesters, Besialang is knowledge, skill, and a source of livelihood. Madu Telisak reflects the continuity of this tradition and the breath of life that upholds the dignity of the community.

A tradition passed down,
a forest guarded, a life sustained.

100% Authentic Forest Honey.
Pure and unprocessed.

From Besialang Tradition.
Sustainable and regenerative.

From Jambi Forests.
Rooted in nature.

LOCAL WISDOM

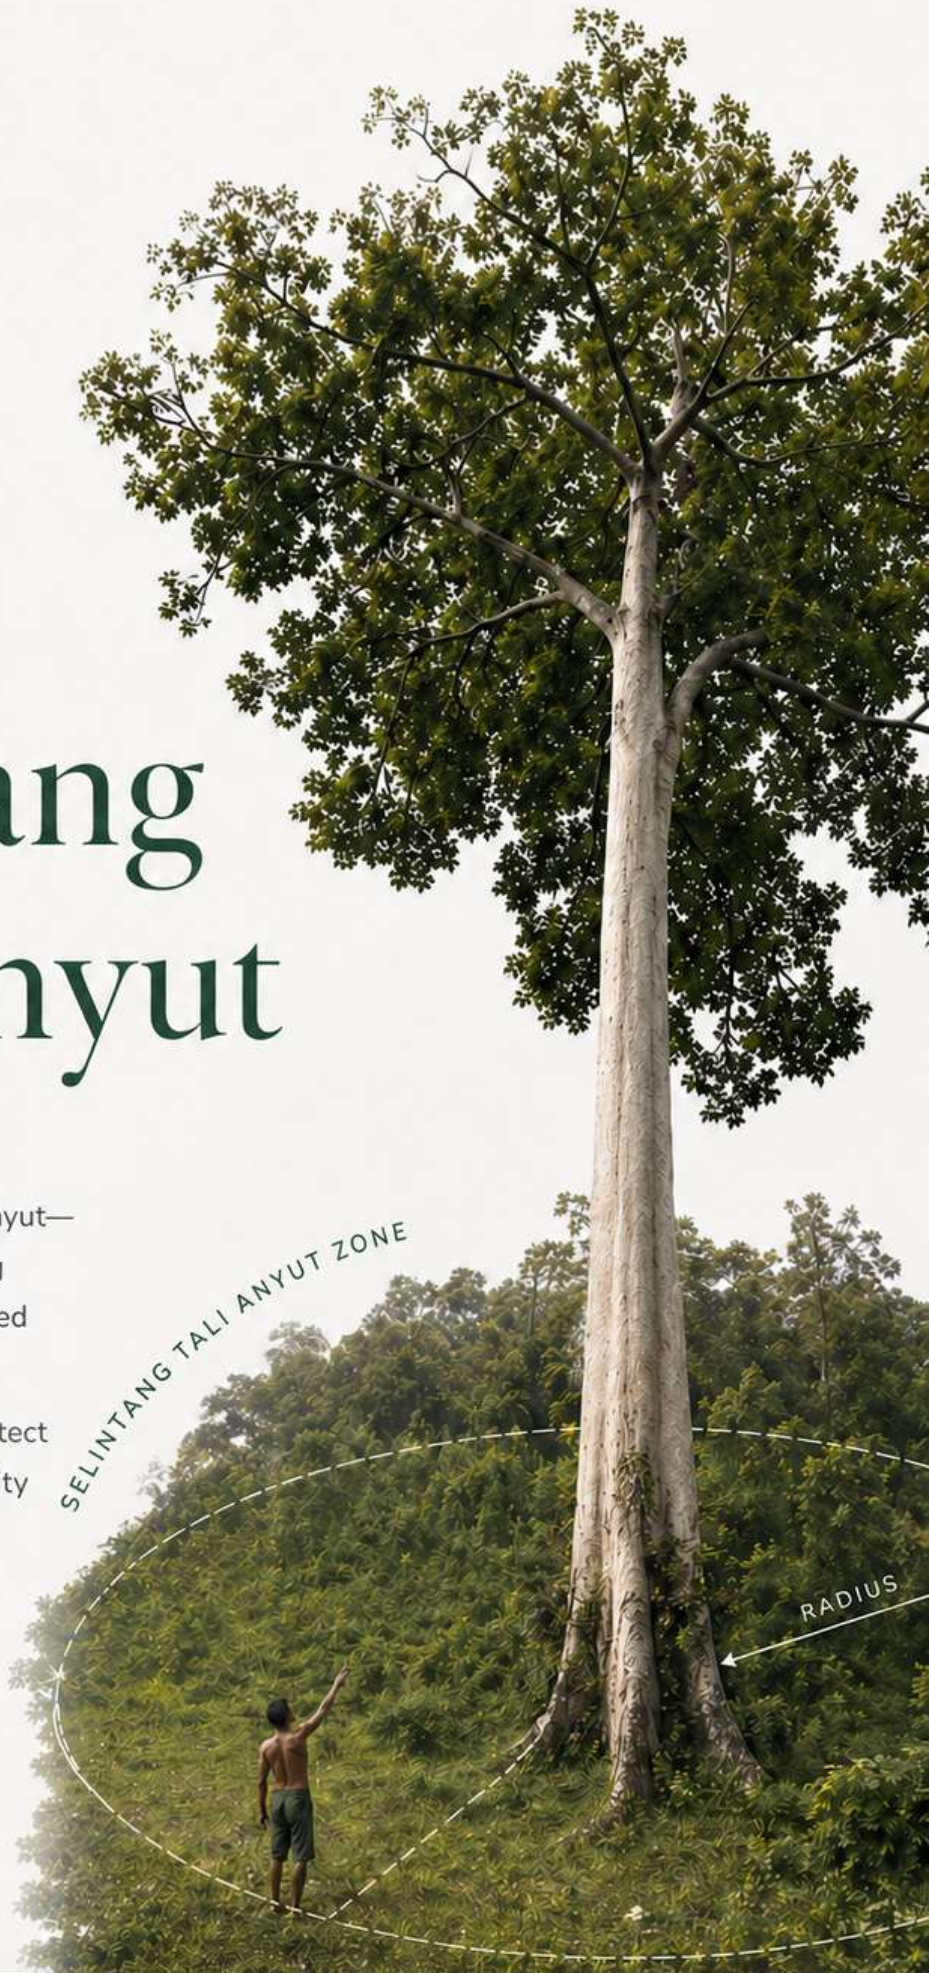

Selintang Tali Anyut

The community safeguards a local wisdom known as Selintang Tali Anyut—the radius of the circle surrounding a sialang tree that must be protected under customary law.

To protect the sialang tree is to protect value, living space, and the continuity of wild forest honey.

To protect the sialang tree is to protect value and life.

100% Pure Wild Forest Honey. No additives.

From Sialang Tradition, Sustainable and Responsible.

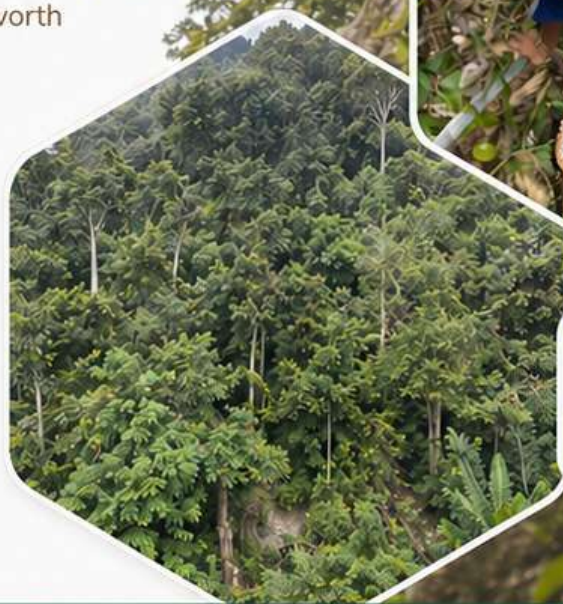

From Jambi Forests, Born of Nature.

To protect the sialang tree is to protect value and life.

From a well-preserved forest,
Madu Telisak brings an honest
taste together with a story of
local wisdom, community dignity,
and a shared future worth
protecting.

100% Pure Wild Honey.
No additives.

From a Proud Tradition.
Preserved and sustainable.

From the Forests of Jambi.
Born from nature.

BIODIVERSITY

Biodiversity that Sustains

Around the sialang tree lies a rich biodiversity that is vital to the forest. When this area remains protected, flowers, fruits, wildlife, and human life strengthen one another within a single ecosystem.

A protected habitat, a treasured nectar.

100% Authentic Forest Honey. No additives.

From a long tradition of care and sustainability.

From Jambi's forest. Purely from nature.
