Food and Beverage Curated Product by It.

It

At Lokasoka, we are driven by a singular belief: that every purposeful choice, no matter how small, has the power to create infinite impact.

This philosophy is the very heart of our new premium gifting and jamuan division,

"It."—a name that is both a playful take on the simple, universal act of “eat” and a profound reflection of our core values.

"It." is not just a name; it is a framework. It stands for Intentionality, Togetherness, and memorable moments. Intentionality guides our every decision, from the meticulous sourcing of our ingredients to the thoughtful curation of each package. We make the conscious choice to partner exclusively with local MSMEs who not only produce exceptional quality but also share our commitment to ethical practices and sustainable livelihoods. This is gifting with a purpose, where every detail is a deliberate step toward creating a better future.

In a world that often feels disconnected, we believe food is the most powerful medium for togetherness.

Our curated packages are designed to facilitate these precious jamuan—the shared meals and festive gatherings where families, friends, and colleagues connect, share stories, and forge lasting bonds. We aim to transform the simple act of eating into a cherished memory, a sensory journey that tells a unique story and brings people closer together. With every bite, a moment is created, and a connection is deepened, fulfilling our commitment to foster true togetherness.
